

Saturday, July 19, 2014 – Friday, July 25 2014

Note: Information in this update is intended to highlight the week's major grizzly bear management actions and is not intended to be a comprehensive detailing of all management activities. Information in this update is draft and subject to change as details from the field become available. Finalized annual reporting of this information is published in the annual report of the Interagency Grizzly Bear Study Team available at: <http://www.nrmssc.usgs.gov/products/IGBST>

Verified Grizzly Bear Killed Livestock

- Verified one (1) yearling and ten (ten) calves killed or injured by grizzly bears on Forest Service grazing allotments in the Pinedale Region.
- Verified five (5) lambs and three (3) ewes killed or injured by grizzly bears on Forest Service grazing allotments in the Pinedale Region.
- Verified three (3) yearling heifers killed by grizzly bears in the Cody Region on a Forest Service grazing allotment.

Research and Monitoring

- Completed grizzly bear observation flights slated for the month of July. Final results, including August flights and other grizzly bear observations, will be reported after the active bear season.

Bear Management (Captures, Relocations, and Removals)

- An adult male grizzly bear was captured and removed after killing multiple cattle on grazing allotments in the Pinedale Region. The bear had a long history of cattle depredations and had been relocated previously.

Law Enforcement and Related Activities

- Nothing to report.

Outreach and Education

- Gave a bear safety presentation to Boy Scouts at the Buffalo Bill Boy Scout Camp.
- Changed out seasonal information related to grizzly bear safety and conflict resolution at educational kiosks West and North of Cody.
